PLM is a strategic business approach that enables organizations to manage the entire lifecycle of their products, from concept to end-of-life. PLM systems provide a single, integrated platform for managing product data, processes, and resources, which can help organizations to improve product quality, reduce costs, and increase efficiency.

The PLM 2024 conference will feature a variety of keynote speakers, technical presentations, and workshops on the latest trends in PLM. The conference will also provide an opportunity for attendees to network with other PLM professionals and learn about the latest PLM products and services.

Conference Topics

The PLM 2024 conference will cover a wide range of topics, including:

- Product lifecycle management strategies and best practices
- PLM systems and technologies
- Product data management
- Process management and optimization
- Product lifecycle costing
- Sustainability and environmental impact
- PLM in the digital age
- Future trends in PLM

Who Should Attend?

The PLM 2024 conference is ideal for anyone who is involved in the planning, implementation, or management of PLM systems. This includes:

- Product managers
- Engineering managers
- IT managers

- PLM consultants
- Researchers
- Students
