Mitch is a man who has lived life on the edge, chasing stories that others fear to touch. He's seen the best and worst of the city, and he's learned that the truth is often stranger than fiction. But when he stumbles upon a story that could bring down the mayor of New York City, he finds himself in over his head.

The mayor is a powerful man, and he's not about to let Mitch ruin his career. He unleashes a torrent of threats and intimidation, but Mitch refuses to back down. He knows that the story he has is true, and he's determined to see it published.

As Mitch digs deeper into the story, he uncovers a web of corruption that reaches the highest levels of power. He learns that the mayor is just one player in a much larger game, and that the stakes are higher than he ever imagined.

Mitch finds himself caught in a dangerous game, where the lines between right and wrong are blurred. He must decide whether to risk his own life to expose the truth, or to turn a blind eye to the corruption that is destroying the city he loves.
